BELLE INBOX

CONTACTS

BENJAMIN HUBERT is very hot right now. He has just won the best new product award at 100% Design London 2009 for his Labnware range of lights (above left). Despite the industrial sensibility of his designs, they are elegant and refined, and have a floating quality. Check out his Heavy Desk Light which has been shortlisted for Best British Design 2009. Benjamin has been very busy indeed – recent accomplishments include a collection of seating called Pebble for Dutch furniture brand De Vorm, and lights for Unique Copenhagen, including Spinning (right) and Float (see page 71).
For more on 100% Design, see pages 70-71.
