DESIGNER Hamish Guthrie: "This Sydney home is located on a steep block and boasts views beyond the tree canopy to the harbour. Hecker Guthrie redesigned and reconfigured the kitchen, and by sacrificing some windows were able to install a long bank of joinery connecting the kitchen to the view. This created a dining area that hadn't previously existed, in the most coveted space within the home." *What luxury item did you choose for this kitchen regardless of budget?* "The client selected high-end appliances from Gaggenau and a white hand-glazed ceramic tile from Italy – and we thought one of those items may have been her luxury item – yet when we quizzed her on it, surprisingly, her answer was the underbench drawer fridge."

COMMAND
PERFORMANCE

Layers of grey and shimmering mosaics steal the show.

DESIGNER Simone Haag: "A touch of glamour and theatre was given to this powder room by way of layering rich grey tones within the space. The dark-grey Bedonia stone slabs, which were also used in the kitchen, continue into this powder room with contrasting shades of grey in the mosaic tiles and powder-coated Vola tapware." *What luxury item did you choose for this bathroom regardless of budget?* "The Francis mirror, with its subtle colour, adds some whimsy to what is an ultra-muted and sophisticated space."
